THEY'RE OFF FOR CUBA

Seems to Be No Doubt About This Statement.

SHAFTER'S FORCE STARTS.

By the End of the Week They Will Be Chasing Spaniards.

THERE WAS SOME CONFUSION.

Sailors Say Such Delays Are Inevitable, and That Rarely Does a Fleet Get Off by First Intention, but the Plans Will Not Be Changed.

Washington, June 15.—Without reference to the exact hour at which the United States army left for Cuba it may be safely said that before the end of the week General Shafter will have landed with his 15,000 United States troops on Cuban soil and the investment of Santiago by land have begun.

There was some confusion in the official mind here on the time of departure of the transports, though assurance was given that they had all gotten away. The confusion on this point is easily accounted for by persons who know anything of the difficulties of moving simultaneously a numerous fleet composed of vessels of all sizes and classes.

No less than three times, beginning Sunday, was a definite hour selected for the start and the war department so notified. Yet in each case some untold obstacle was encountered that required notification to the department that a postponement had been forced. Sailors say such delays are inevitable and that rarely does a fleet get off by first intention. However, the department officials stated that they believed the very last of the transports had at last started for Cuba.

After all, the delay of a day or two in the start is not calculated to make any material difference in the plans and the only persons who will suffer from it will be Sampson's marines, camped on the tropical bay of Guantanamo and obliged to maintain the greatest vigilance in repelling the bushwhacking Spanish irregulars who swarm in the thickets.

This foe gives no trouble during the daylight hours, owing to the presence of the Marblehead within easy range, but at night when the warship is unable to distinguish their own men from the enemy the lot of the marines is a very exciting one.

Having started the Santiago expedition the war department has now concentrated all its energies on the preparation of the force to be sent to Porto Rico. Active movements in that line have been made on a scale so extensive as to lead to the supposition in some quarters that the attack is to be directed upon Havana, but if this is so there is no open indication of it.

The volunteers collected at Chattanooga, 42,000 in number, are reaching a degree of excellence under the magnificent management of General Brooke that would warrant the government in ordering them immediately into active service, but, unfortunately, there is still a considerable lack of equipment that will not permit of this.

SECOND EXPEDITION SAILS.

General Merritt has brought the second installment of his force into readiness and sails for Manila at once. It is believed that the advance guard, the three transports which followed the Charleston to Honolulu, met the cruiser there and sailed in her company for the Philippines about the 12th of this month. In this case, it is reasonable to expect them to arrive at Manila within a week.

The only bulletin posted at the navy department from Sampson contained the satisfactory news that an American naval officer, Lieutenant Victor Blue of South Carolina, at the risk of his life, had succeeded in encircling the bay of Santiago and counting the Spanish vessels therein with the result of establishing the fact that all of Cervera's fleet were bottled up.

An unexpected complication has arisen as to the right of Admiral Sampson at Santiago and Admiral Dewey at Manila to use the cables which they have secured with a view to bringing them into direct telegraphic communication with the authorities here.

It is understood by officials here that Admiral Dewey secured the shore end of the cable leading from Manila to Hongkong some time ago, and buoyed it with a view to sending dispatches.

The same condition is understood to exist at Santiago, where Admiral Sampson has buoyed the shore end of the cable with a view to repairing and using it.

No messages have been sent, and the question has arisen as to whether it is allowable under the rules of neutrality for the French and British companies owning these lines to permit them to be used for strictly military purposes.

The companies control the points of exit and are able to refuse to pass dispatches along, so that the holding of the shore ends by Admirals Dewey and Sampson does not permit them to carry on communication, except through the assent of the companies.

These are private concerns, but they are bound to observe the neutrality of their respective governments. There is some anxiety, therefore, as to the course of the operators of the French

company at Haiti, when they receive messages from Admiral Sampson.

"Should they refuse to handle them over neutral lines, touching neutral territory, an interesting international question might arise.

The same condition exists as to the Manila cable, and the failure to receive dispatches from Manila is attributed to the failure of the British operators at Hongkong to take the messages.

It is stated that negotiations are now progressing which give promise of a satisfactory understanding with the companies, and the forwarding of such messages as the American admirals send.

INVITED TO LEAVE.

Spanish Spies Have Been Unceremoniously Kicked Out of Canada.

Madrid, June 15.—The minister for foreign affairs, Duke Almodovar de Rio, told the newspaper men that the Spanish government had not taken any step in the direction of peace negotiations. The minister also said he had not received any confirmation of the reported third attack on Santiago de Cuba.

The minister for war, General Correa, declared the situation at Manila is better than was supposed. He said Captain General Augusti had concentrated 20,000 men for the defense of the city and his batteries of artillery are asserted to comprise 199 long range guns.

It was officially announced that Senor Du Bosc, the former Spanish charge d'affaires at Washington, and Lieutenant Carranza, the former Spanish naval attaché at Washington, have been "invited" to leave Canada, owing to the "Canadian authorities having intercepted a letter which Lieutenant Carranza addressed to the minister of marine, giving an account of the condition of the American 'fortifications.'"

Blames the Madrid Officials.

London, June 15.—The Times gives space to a 2-column account of the battle of Manila, including Admiral Montojo's version of the destruction of his fleet. It contains nothing beyond what has already been cabled to the United States, except the statement of Montojo that he intended to fight at Subic, but, on finding that it would take at least a month to put Subic in a proper state of defense, he was obliged to return to Cavite. He blames the Madrid government for the disaster, declaring that he had constantly made requisitions for ships and torpedoes, but that nothing came.

Water For the Fleet.

Savannah, June 15.—The tank steamer Maverick, which has been here loading water to be used by the troops at Key West, will sail soon. The city sells artesian water to the government for 4 cents per 1,000 gallons, a figure considerably below what they could get it for at Key West. The success of the Maverick's trip appears to be assured, and it is said, the government will soon send other vessels here for water for the fleets.

Orders to Regiments.

Washington, June 15.—Orders have been issued for the First and Third regiments of Georgia volunteers to report to Major General Brooke, commanding the First army corps at Chickamauga, Ga., and for the First regiment of Mississippi volunteer infantry to proceed to Jacksonville, Fla., and report to Major General Lee, commanding the Seventh army corps.

No Natives to Be Enlisted.

San Francisco, June 15.—A general order has been issued to the effect that no native of the Philippines shall be enlisted in the army of the United States. Among the recruits for company L, Seventh California volunteers, is Ong Q. Tow, a Chinese, who was born in this state 25 years ago. He is a citizen and a qualified voter of the town of Santa Anna.

Second Philippine Expedition.

San Francisco, June 15.—Thirty-five hundred soldiers left Camp Merritt, marched to the docks and boarded the transports which are to form the second expedition against the Philippines. It is doubtful if the voyage begins before Thursday. Brigadier General Greene is in command of the expedition.

THE SITUATION GRAVE.

However, the American Flag Is Still Floating.

MARINES ARE FIGHTERS.

They Refuse to Be Driven Out by the Bushwhackers.

DONS LOSE SEVERAL BRAVES.

Fifteen of the Enemy Found Dead in One Heap, Having Been Killed by Lieutenant Neville and His Men Who Were on Scout Duty.

Camp of the United States Marines, Outer Harbor of Guantanamo, June 15.—After three nights of hard fighting the American flag still floats on Cuban soil over the encampment of the marine battalion, and our boys say they will keep it there until the belated troops arrive if it takes till winter.

Thus far the marines have had the best of the fighting, but the situation is grave and they are busy with repelling almost incessant attacks. They have little chance to rest or sleep, and the time of the arrival of the relieving troops is uncertain.

Were it not for the protecting guns of the fleet the gallant little band would be annihilated by the Spanish troops in overpowering numbers from Santiago de Cuba. As it is, they probably can hold their position, but they can not move forward until reinforced by troops.

What first, with the white tents on a bold eminence against the tropic background, looked like a holiday camp is now grim reality. The tents have been struck and rolled into breasted works, supplemented by trenches around the crest of the hill. The spot is lamentably exposed, while surrounding it on all sides is heavy brush.

The least movement in the camp is the signal for instant target practice upon the part of the Spanish sharpshooters, whose rifles carry much further than ours, though their owners rarely hit anything they aim at. It is impossible to accurately estimate the Spanish attacking force, but it is numerous enough.

About two-thirds of this force surround the camp nightly with a deadly ring, and the spitting of the Mausers make things quite lively, for the Spaniards are daring enough to crawl up and take a pop shot at the marines from the bushes about 30 yards from the camp.

FIGHT LIKE INDIANS.

At night the besiegers fight like Indians, and our old Apache fighters will feel in their element. Every yard of chapparel is an ambush, and picket duty is flipping coins with death.

After the first attack on Saturday night Colonel Huntington decided that another attempt would be made on Sunday night, and he caused intrenchments to be thrown up on all sides of the camp, and in the trenches the main part of the battalion waited for the attack that the colonel was certain would come.

It arrived within a short time after dark, and from that time until daybreak the firing was incessant and at times very heavy. On the American side two men were killed and four injured.

The Marblehead, believing the Americans had been driven out, threw several shells into the camp. The attack, however, was repulsed by the small detachment of marines in camp without trouble. The shells of the Marblehead struck among the marines.

The fight was the first of the war in which the Cubans co-operated with the American forces and their co-operation was not a glittering success. At one time during the afternoon whenever the marines were firing on a small detachment of Spaniards that made their appearance a short distance from the camp, the Cubans began firing without orders and sent a volley right among the Americans. There were several very narrow escapes but no one was injured.

Lieutenant Neville of company D was sent out on scout duty and as on the day previous he attacked a small stone fort. A hot fight followed and the Spaniards were driven off with loss.

Fifteen dead Spaniards, including one lieutenant, were found in the fort. During the attack several shots struck the ships in the harbor, one penetrating the pilot house of the press boat Dandy. No one was injured on board of her.

Sampson Will Be Promoted.

L. Hatch, McHenry county; A. F. Nightingale, Chicago; Alice, Asbury Abbott, Chicago. The platform commends the policy of the national administration before and since the outbreak of the war and declares "the United States should hold such possessions in the conquered territory as will be advantageous to its interests in time of war and peace" and that all the conquered possessions should be held until an indemnity is paid by Spain. The platform also favors an increase of the navy and urges the construction of the Nicaragua canal.

IN THE WATER A YEAR.

Headless Body Found Floating In the River.

IT WAS BADLY DECOMPOSED.

The Flesh Was Eaten Away to Such an Extent That It Was Impossible to Tell Whether the Victim Was Black or White.

Ludlow, Ky., June 15.—The horribly decomposed body of a man was washed ashore at Flemming's Landing, Kenner street, Ludlow, Tuesday morning.

The head and arms were off and the flesh so eaten away that it could not be determined whether the man was colored or white. The body seems to have been in the water a long time.

"From indications," said Coroner Tarvin of Covington, "the man may have been in water a year. A pair of boots the man wore had been half-soiled apparently a short time before the man's death. I believe the man was 5 feet 7 inches tall, and weighed 150 pounds."

Could Quickly Settle It.

Manchester, Ky., June 15.—A. B. Howard, father of James Howard, recognized leader of the Howard-White side of the great feud in Clay county, said, "The Bakers have not more than a hundred friends. All the other people in Clay county are my friends. But not all will mix in a fight. I can go to Harlan county, though, and come back to town with 500 fighting men and settle this feud at once. But I do not want to do it. I want the law to take its course."

On Captured Spanish Paper.

Louisville, Ky., June 15.—Edward P. Stanton of Louisville who was signal man on the Olympia at Manila, has written a letter to a friend here describing the great battle. When the battle-flag which flew at the Olympia's head was made he sewed in a star for Kentucky. He wrote the letter on captured Spanish paper taken from Admiral Montojo's secretary, with a captured Spanish lead pencil.

Osgood, Ind., June 15.—The death of Bert Hess of this city is surrounded in mystery. His body was found lying on the railroad tracks Saturday, the head severed from the body. No money was found on his person, though he was known to have several dollars when last seen. Twelve tramps are reported seen in the neighborhood on the night of his death, and their whereabouts will be looked into.

LEITER'S COLLAPSE.

English Newspapers Rejoice at the Downfall of Chicago's Speculator.

London, June 15.—The collapse of the Leiter wheat corner has caused a panic in the Liverpool market.

In London the news of collapse was received with equanimity.

The Star says: "If the prime mover in this war against mankind is beggared by his greed, the retribution is well merited. Nothing can atone for the awful suffering Leiter and his accomplices have caused."

Armour Relieves Leiter.

Chicago, June 15.—P. D. Armour bought all of Joseph Leiter's cash wheat in the northwest, amounting to 4,000,000 or 5,000,000 bushels. Semi-authoritative information is also obtained that Armour will take up all of Leiter's wheat.

The Annual Commencement of This Popular Academy a Brilliant Success.

List of Premiums Awarded in the Various Classes—The School Will Remain in Maysville.

The commencement at St. Francis de Sales Academy yesterday afternoon was a most beautiful entertainment throughout. Indeed the success of any performance given under the direction of the talented and careful instruction of this institution is "a foregone conclusion."

Perhaps the largest audience ever yet assembled upon a similar occasion enthusiastically greeted the two sweet girl graduates;—Miss Dobyns and Miss Whitaker, who were respectively the salutatorian and valedictorian of the day, the former giving a cordial and graceful welcome; the latter weaving into her subject "Birds of Passage" some very wise and beautiful thoughts as she wended her way to the final adieu.

We would that space would permit us to dwell upon each number of the truly delightful program. Both numbers of the Mandolin Club evinced careful practice and splendid ensemble playing. The selection from "Faust," with its well known difficulties, was rendered in a manner of which any amateur orchestra might well feel proud.

The announcement of a drill by the Junior Delsarte Class caused a general uprising at the back of the audience, half the people standing on their chairs. This was a just tribute to the enviable reputation these little tots have made by their fairy-like maneuvers at previous entertainments. On this occasion they only added fresh laurels to those already won.

Miss Weigand's violin solo was intensely enjoyed, as were the piano solos by the talented young women, Miss Burgess and Miss Platt. The latter was ably accompanied on a second piano by Miss Ragland.

Universal disappointment was felt that Miss Clingenbeard was unable to fill her place on the program. Miss Cora Brown kindly gave a charming recitation in its place, but we should have liked to hear both.

Rt. Rev. Bishop Maes responded to the valedictory in a most happy vein, giving praise where praise was due and distributing medals and honors and gifts until upon the bright girl-faces shone a happiness, their's unquestionably to-day and, we pray God, forever. Following was the program:

It has been intimated that this would be the academy's last year in our city, which was due to a very liberal offer extended to the Sisters of this institution to go elsewhere, but they have, after considering the propriety of making the change, decided to remain here and continue the school. Its patrons and the public generally have many reasons to congratulate themselves on this decision, for had the Sisters accepted the offer extended them it would have been our city's loss and another's gain.

Too much can not be said in praise of, or too great an appreciation given to St. Francis de Sales Academy as an educational institution. It was founded in 1865 and has continually and actively been identified with our educational interests. It has always maintained a high standard of education, and its teachers have been capable, diligent and conscientious in the discharge of their duties. Its course of instruction has been thorough and practical, while the strictest attention has been given to the ornamental branches and to polite and amiable deportment which add grace and refinement to a lady's education. It has sent forth many young ladies whose success in life and social recognition are a strong testimonial of the educational training they have received at St. Francis de Sales. Its influence has been greatly felt in our community, and it has been instrumental in making many bright and cheerful homes, all of which should commend the excellent school to the liberal support and patronage of the city and the surrounding country.

River News.

Stanley down to-night and Bonanza up for Pomeroy.

Heavy showers fell at headwaters this week, and a good boating stage is probable.

The last stone was laid in place at Lock No. 11 in the Kanawha river Saturday, and it will now be only a few days until the whole work will be completed, and navigation opened for all seasons of the year from one end of the Kanawha to the other.

Towboats are having difficulty getting over the Twin Creek Bar at Buena Vista. Friday the Boaz was stuck there twenty-four hours with a tow of empties. Saturday the H. F. Frisbie was stuck twelve hours with empties, and Sunday night the W. W. O'Neil was stuck over night.

The Democratic Primary in Brown County.

GEORGETOWN, O., June 13.—The returns of the Democratic primary, held in this (Brown) county Saturday, show that Robert McCall was nominated for Auditor by a majority of 752, receiving a total vote of 1,752; A. D. Rist, for Commissioner, by a majority of 5, receiving a total vote of 861; Overt Campbell, for Sheriff; Lewis Schweickart, for Recorder; D. G. Teeters, for Infirmary Director, and James Albright, for Coroner. The last four were for second terms. A large vote was cast.

There is no improvement in Mr. W. S. Frank's condition. He is gradually growing weaker.

THE CONGRESSIONAL RACE.

The Mason County Man Has the Lead For the Democratic Nomination.

Louisville Commercial: "The Ninth also promises a warm race. Present Congressman Samuel J. Pugh is a candidate for re-nomination, but several other Republicans would like to represent this district. Among them are Hon. R. C. Meyers, of Greenup, R. D. Davis, of Boyd, and W. H. Cox, of Maysville."

"The Democrats hope to redeem the district. * * * Hager and Williams, both of Boyd County, want the nomination, but Hon. J. N. Kehoe, of Maysville, has the endorsement of Hon. C. B. Poyntz, of the Election Commission, and other prominent men of the district, and being much the strongest candidate will walk off with the nomination. The convention has been called for August 10 at Cynthiana."

Louisville Dispatch: "The race for the Democratic Congressional nomination in the Ninth seems to be yet considerably in doubt. Hon. J. N. Kehoe, of Maysville, seems to have the best chance of winning now, and is very popular all over the district, but there is yet considerable talk that a dark horse may be nominated, and that the names of Hons. Waller Sharp and Claude Desha are most frequently mentioned as being in the path of the lightning."

"None of those mentioned as candidates are making a canvass of the district, but Mr. Kehoe's friends all over the district are urging him as being the most available man. The district is very close and is at present represented by a Republican, but it is generally conceded that with a good man and a fair count the Democrats have a safe majority. The present Republican Congressman Pugh, who seems likely to be re-nominated, notwithstanding the fight that is being made on him, has made a number of enemies in his own party by the distribution of the postoffices in his district and cannot again command the following he has always had. He has also invoked the displeasure of Hon. John Henry Wilson by having his appointment as Assistant District Attorney revoked. While he does not live in Pugh's district, he is not so far away but what his influence may be felt in the election."

Hon. Jas. P. Allen, ex-member of the Legislature from Fleming County and a candidate for the Democratic Congressional nomination two years ago, who has also been spoken of as a probable candidate this time, is here attending Circuit Court. In reply to a question from the BULLETIN's representative as to his attitude in the present race for Congress Mr. Allen said:

"I shall not be a candidate for the nomination this time. Of course I have an ambition to go to Congress, and have had for a number of years, but under the present circumstances I consider it the duty of all Democrats to put their personal ambition behind them and join in an earnest effort to re-establish the supremacy of Democracy in this State. I am of the opinion that Hon. James N. Kehoe, of this city, is the proper man to make the race, and this sentiment largely prevails in all parts of the district; and, regardless of my own desire to go to Congress, I am frank in the expression of the opinion that it will be a mistake should we fail to nominate him. What information I have leads me to think he will be the nominee. Fleming County will be for Mr. Kehoe."

Mr. Allen is one of the most intelligent and truest Democrats in this district.

NEW TAX

On Cigars and Tobacco—Collector Receives a Letter of Instruction.

[Lexington Herald.]

Collector Roberts Monday received from Washington a letter of advice concerning the new revenue bill which has passed both houses of Congress and received the President's signature. One paragraph will be of interest to every dealer in cigars, cigarettes and tobacco. It is as follows:

"Dealers having stock on hand with stamps affixed at old rates subsequent to April 14, 1898, in excess of 1,000 pounds of tobacco, or 20,000 cigars or cigarettes, are required to make return to Collectors within thirty days after the passage of the act for assessment of a tax equal to one-half the difference between the tax already paid on such articles, at the time of removal from the factory or custom house, and the new rate."

FIRE IN SIXTH WARD.

The Residence of Colonel W. H. Fremont the Scene of a Lively Blaze Tuesday Afternoon.

The two-story frame residence occupied by Col. W. H. Fremont on Second street, Sixth ward, caught fire from a defective fine Tuesday afternoon, and was very badly damaged, notwithstanding the excellent work of the new Limestone Fire Company. Had it not been for this company the building would have burned to the ground. The boys had the fire out before the Amazons reached the scene.

The building is owned by Mr. Frank Dieterich, and will practically have to be rebuilt, as it was gutted by the flames. It was insured in Dr. Fleming's agency for \$600.

The loss falls especially heavy on Col. Fremont and the members of his theatrical company who board with him. He lost most all of his household and kitchen furniture, clothing and about \$60 in cash, and had no insurance.

Mr. Frank Wilson, one of the performers at the park, neglected his own interests and worked heroically to save other people's goods. He lost \$22 cash, two diamonds, a new dress suit and other clothing, his total loss being about \$150. His side partner, Mr. Joe Nelson, lost about \$100 on his wardrobe.

Mrs. Kline and children lost most of their wardrobe. Miss Grace Gilmore, Mlle. Maxine, Ben Turpin and some of the others also sustained losses.

Fremont Park.

A crowd of goodly proportions was present again last night. Manager Fremont has a good show this week and the people of Mayesville are attesting their appreciation by attending. The Kline children were the recipients of numerous encores. Their work is of a high order. Prof. Stricklin's dogs are amusing and perform difficult feats. The free exhibition by "McKinley," the high leaping dog, from the tower was cleverly done and evoked much applause. He will repeat the performance again this evening at 8 o'clock. Be sure and see it.

Millions Given Away.

It is certainly gratifying to the public to know of one concern in the land who are not afraid to be generous to the needy and suffering. The proprietors of Dr. King's New Discovery for consumption, coughs and colds, have given away over ten million trial bottles of this great medicine; and have the satisfaction of knowing it has absolutely cured thousands of hopeless cases. Asthma, bronchitis, hoarseness and all diseases of the throat, chest and lungs are surely cured by it. Call on J. James Wood, druggist, and get a trial bottle free. Regular size 50 cents and \$1. Every bottle guaranteed, or price refunded.

ANOTHER FIRE.

Mr. S. H. Harrison's Residence at Clark's Station Destroyed Last Night About 12 O'Clock.

Mr. S. H. Harrison's residence at Clark's Station was destroyed by fire between 11 and 12 o'clock last night.

The building was a frame, and was erected about two years ago.

The family eaved but little or any of the household goods.

The amount of the loss has not been learned. There was no insurance.

The mother of Messrs. William and Thomas Chandler, teachers, is very much improved in health.

We Have Always Contended

For and maintain it is a fact that there is a higher order of intelligence evinced in the buying of general merchandise by the people in this and nearby counties than most anywhere else. You will find few persons who do their shopping in Maysville who believe that \$4.98 will buy a \$12 Suit of Clothes. Our many years of experience goes to show that people want good goods for which they are willing to pay a fair price. Our 1898 Spring business proves that the higher the class of goods the readier they sell. Our beautiful

OUR FARMERS.

Their Products Have Enjoyed An Unprecedented Foreign Demand.

All Previous Records Broken This Year. Enormous Agricultural Exports.

WASHINGTON, June 12.—The farmers of the United States are drawing upon other parts of the world for more money in the fiscal year which ends with this month than in any preceding year in the history of the country. Even the high water mark of 1892, when our exports of agricultural products amounted to \$799,328,232 will be surpassed by the record of the year which closes with this month. The preliminary report of May exportations which have reached the Bureau of Statistics makes it quite apparent that the exports of the year will be considerably in excess of \$800,000,000, the total for the year being likely to reach \$835,000,000. Never before have the exports of agricultural products reached the \$800,000,000 line, and never but twice they have been as much as \$700,000,000, the two occasions in which they passed the \$700,000,000 line being in 1881 and 1892. Compared with last fiscal year the increase in exports of agricultural products will be fully \$150,000,000, and compared with the preceding year the increase will be over \$250,000,000, while the total will be fully 50 per cent. in excess of that of the fiscal year 1895.

In breadstuffs alone the exports of the year will amount to nearly \$1,000,000 for each business day, and will be more than \$100,000,000 in excess of last year's breadstuffs. Nearly all articles classed as breadstuffs have participated in this increase. Of wheat the value of the exports for the fiscal year 1898 will be more than double those of the fiscal year 1897; while the increase in flour will be nearly 50 per cent. and of corn nearly 50 per cent. in value. May exports of corn were larger than those of any month in the history of the country, while the total exports for the year for the first time will pass the 200,000,000 bushel line, the total in only three preceding years having reached 100,000,000 bushels. Cornmeal, oats and oatmeal and rye show a striking increase, the gain in oatmeal being more than 60 per cent. over that of last year, and that of oats 100 per cent., while in rye the gain is also phenomenally large.

In provisions, in which items are included beef, hog and dairy products, there is also a marked increase, the total exports of provisions for the year being likely to reach \$160,000,000 in value.

Most of this increase, however, is in hog products, exportations of bacon which were \$34,187,147 in value last year being likely to reach \$44,000,000 this year, and lard showing a similar increase, being likely to reach \$37,000,000 this year, or a gain of nearly \$8,000,000. Live beef seems to be gaining in popularity with our foreign customers, the exports of beef cattle having increased materially, while those of beef, either fresh, canned or salted, have failed to show any increase, in most cases a decided falling off being noticeable.

The exports of beef cattle during the first ten months of the fiscal year were 379,663 against 310,478 in the corresponding months of last year, while fresh beef in the same period fell from 242,168,034 pounds in ten months of 1897 to 227,434,373 pounds in the corresponding ten months of 1898. Salted beef shows a fall of 35 per cent. for the year and canned beef from 46,349,006 pounds in the ten months of 1897 to 34,011,129 pounds in the ten months of 1898.

Electric Park.

A large representative audience enjoyed the delightful performance given at this cozy little place of amusement last night. It is considered the best bill ever presented to any park's patrons in this city. "Warren and Howard" in "Idiosyncrasies" were as pleasing as ever, and they injected lots of new material in their act. The burlesque grand opera finale wins hearty applause, and this popular duo were compelled to answer numerous encores. "Little Rastus," the pickaninny wonder, scored another big hit. "The Two Fantas" act is entirely different from anything of the kind ever seen in Maysville, and they are entitled to be called the toppers of acrobatic comedy work. Their clever little conceit "Raymondondone" is very amusing and if you go out to-night you will say to your friends you saw the best show for the price ever seen in Maysville.

Remember the price is only 10 cents for a ticket to the only big show in town, and a pleasant street car ride.

The man who stands idly by and sees the life fading out of his wife's face, sees her health going, sees her becoming old and faded and wrinkled when she should still be in the perfect enjoyment of vigorous, useful health, is either less than a man or else does not know of the one remedy which will bring her back to health and strength. Perhaps her husband cannot persuade her to go to her doctor, because she naturally dreads the inevitable "examinations" and "local treatments." He can persuade her, if she needs persuasion, to take Dr. Pierce's Favorite Prescription. This truly wonderful medicine has cured hundreds of women after the best physicians have failed. It has been in constant use and tested every day for thirty years. It isn't an experiment, there are no chances about it. It is a certain cure for all derangements, weaknesses, irregularities and displacements of internal organs peculiar to women.

Identity Established.

SAN FRANCISCO, June 15.—The mystery surrounding the identity of Hugh W. Williams, who was shot during a quarrel at the home of Mrs. Abbie Gregory in Alameda, is partly cleared away by documents found in the room of the dead man which show that he received letters from England addressed "Sir Hugh W. Williams, bart. F. G. S. M. I. C. E." This would indicate that Sir Hugh Williams was a baronet, a fellow of the Geological Society and member in civil engineering.

WASHINGTON, June 15.—The senate adopted the Lodge resolution to investigate payments to agents or lobbyists in connection with the claim of the book concern of the Methodist Episcopal Church South.

In the black night heed her!
She hath slipped through Death's dim gate—

LOUISVILLE TOBACCO MARKET.

Strong and Active Last Week For Burley, With a Decided Improvement in Prices.

[Furnished by Glover & Durrett, Louisville Tobacco Warehouse.]

Sales on our market for the week just closed amount to 1,650 hds, with receipts for the same period 1,134 hds. Sales on our market since January 1st amount to 62,275 hds. Sales of the crop of 1897 on our market to this date amount to 55,555 hds.

New Burley—We have had an active strong market past week for burley tobacco. The smooth red kinds from tips to medium leaf show a decided improvement; bright trashes are also stronger. Good to fine leaf has been very active—frequent sales having been made at from \$15 to \$21. One crop of 17 hds. from Fayette County averaged \$14.45 round.

Old Burley—Prices for old burley have been better, quite a number of hds. bringing from \$14 to \$15 and some as high as \$21.50. Such grades as are selling from \$5 to \$9.50 show decidedly more strength and the general tone of the market is better.

CADY'S ART STUDIO.

A beauty screen your shirt front will prove to be when it is laundered at the Power Laundry. A man feels like somebody when he can ensee himself behind a shirt front that looks like new every day in the week, or don a collar or cuff that is as perfect as if bought that day, every time he arrays himself in linen "done up" here. Our laundry work is perfect.
